

Integrated Security Operations and Workforce Management Platform

Leverage our cloud-based platform for better risk assessment and service level delivery evaluation.

CLIENT DASHBOARD | FULL TRANSPARENCY | STREAMLINED COMMUNICATION | KPI & BUSINESS ANALYTICS

► TIME & ATTENDANCE TRACKING

We got rid of traditional time clocks or paper timesheets and capture everything online for easier payroll processing. Real-time alerts enable us to ensure coverage with qualified officers at all times.

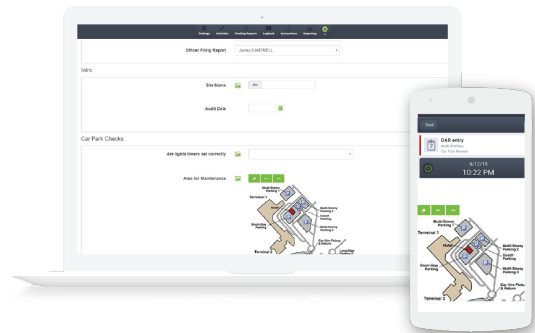

► EFFICIENT COMMUNICATION

We keep officers in the field up-to-date with real-time notifications and alerts, including text, photos and videos. Supervisors can request a receipt when notifications are acknowledged avoiding any misunderstanding.

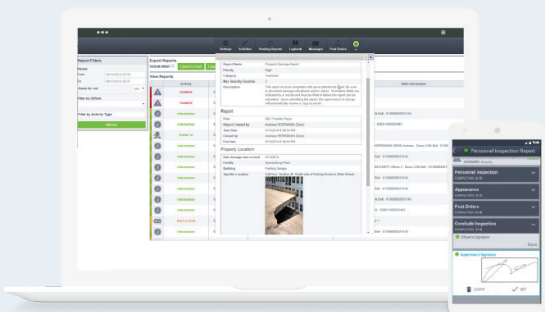

► CUSTOMIZABLE REPORTS

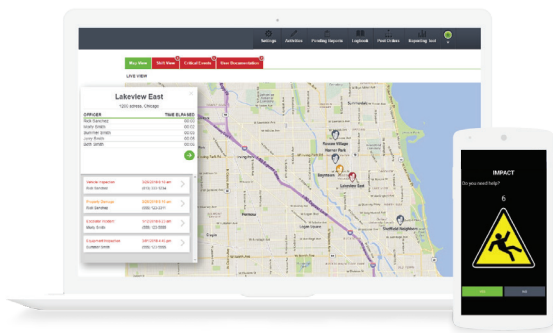

Data collected by our platform is easily aggregated and analyzed for proper benchmarking and reporting. Reports can be customized to meet clients' requirements and shared with all stakeholders.

► GUARD TOURS

GPS and NFC technologies ensure officer accountability and helps them to be more productive and efficient. Real-time officer monitoring gives our supervisors and clients the peace of mind that our officers are fulfilling their duties.

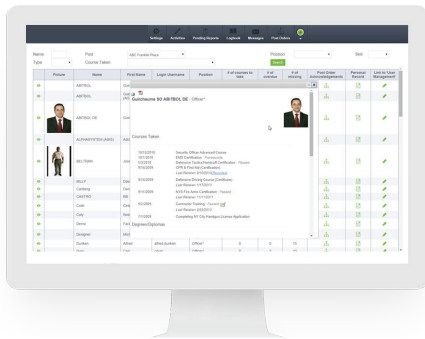

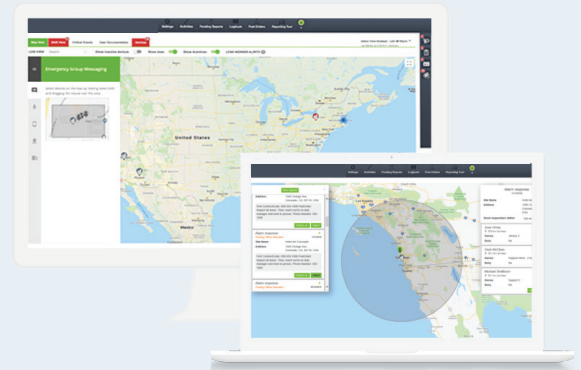

► LONE WORKER PROTECTION

We ensure security officer safety with the GPS-enabled Lone Worker Protection feature. Officers can request immediate assistance in an emergency.

► GEOLOCATION & DISPATCH

We can easily track & locate officers outdoors with geolocation checkpoints and indoors with NFC checkpoints. Dispatching happens based on proximity and availability for an alarm response.

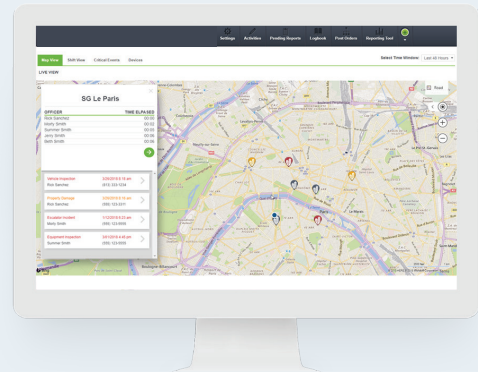

► ENSURE PERSONNEL QUALIFICATION

With our platform, clients have a view of our security personnel's qualifications, training and certification status ensuring contract compliance.

► COMMAND CENTER/GSOC

Thanks to our Command Center/GSOC, we are constantly aware of our client's security situation and we can unify threat analysis across multiple sites.

► REAL-TIME DASHBOARD

All our clients have access to a live dashboard providing a single view into staffing, operations and compliance. Fully customizable to meet your requirements.
